

High Performance Machining Technology Conference 2014

Feb 25-26, 2014

Shanghai Renaissance Hotel

Background

5th High Performance Machining Technology Conference by Ringier successfully held from Feb 25-26, 2014 in Shanghai. Senior experts, end users and some suppliers who from automotive, mold, aviation, track traffic and engineering machinery industries discussed latest application and future trend of high performance machining. This conference focuses on efficient innovation for the sustainable development of environmental protection and energy saving technology in the application of metal processing.

There were more than 20 excellent presentations during 2 days. Conference focused on how efficient processing technology greatly affect the efficiency of processing workshops, how to improve the material adaptability to reduce production cycle. Conference revealed some wide recognition efficiency improvements, surrounding the latest application of efficient processing technology and its future trend. There were various forms such as plenary combined with parallel sessions, business dinner party and onsite visiting which offered more benefits to the attendees.

This Conference has opened a demonstration, 19 industry leading exhibitors to bring the latest research results and solutions, the overwhelming communication, let the participants know new industry trends and innovative technology, designed for the needs of the enterprises and exhibitors do a further communication and discussion.

Dinner

Main Session

Mr. Chen Youxu
Technical Support Manager,
Houghton
Topic: The Application of
Lubricant in High Efficient
Machining

Mr. Li Hong
Technical Manager,
Walter Greater China
Topic: Walter Tools Solution for
High Efficiency Machining

Mr. Dong Jingqi
Technical Application
Manager, Kennametal
Topic: Experience Powering
Productivity—NOVO

Mr. NAGOSHI MASAO
GM, Shanghai FE-MOVAC
Precision Machine Ltd.
Topic: Application of High
Pressure Water Cleaning
Technology in Efficiency
Processing

Mr. Fan Zhenyu
Chief Engineer ,
Beijing Peak Technology Co., Ltd
Topic: Minimized Quantity
Lubrication—The Promoter of
High Efficient Machining,
Energy Saving and
GreenManufacturing

Mr. Qi Huan
Shanghai Jiao Tong University
Topic: Direct Metal Additive
Manufacturing

Mr. Gong Xuepei
General Manager, WECAN
M&E (Shanghai) Co.,Ltd.
Topic: Application of Flexible
Manufacturing in Machining
Automation

Mr. Qian Wei
Technical Director , Sescoi
China
Topic: WorkNC in Sheet
Metal Mold

Mr. Shi Yong
Assistant Dean of Machinery
Industry Information Institute
Topic: The Processing Tendency
and Response of Manufacturing
Industry

Mr. Wang Jianguo
Chief Engineer of Engine
Related, Foton Motor Co., Ltd
Topic: Process Planning of
Engine Line

Mr. Bono Wang
Regional Manager, FARO
Technologies
Topic: Application of Advanced
Measurement Technology in
Auto, Mold Industry

Mr. Yang Zheng
VP, HAWE
Topic: Saving Solution
of HAWE Metal-Cutting
Machine Tool

Parallel Session 1: Auto, Mould Industry

Parallel Session 2: Aviation, Track Traffic, Engineering Machinery Industry

Mr. Tony Hui
Sales Director, Horn
Topic: High Efficiency Application of Horn in Aviation Industry.

Mr. Liu Lvzhou
Supervisor Engineer, Comac Shanghai Aircraft Manufacturing Co., Ltd
Topic: System & Method of Part High Speed Machining

Mr. Qian Kuncai
Professorate Senior Engineer, CSR Qishuyan Institute CO.,LTD.
Topic: Research on the Materials and Manufacturing Technology of the Key Components of High Speed Train Braking System

Mr. Randy Kish
Sales Manager,

Mr. Xu Jinhong
Director Manager
SHIEH YIH MACHINERY INDUSTRY CO., LTD.

Topic: Genuine Direct Drive Servo Presses - Optimizing Productivity in Deep Draw Applications

Mr. Zhu Zhengde
Professorate Senior Engineer, Shanghai Volkswagen Powertrain Co., Ltd.
Topic: Green Manufacturing Concept in the Process of Modern Car Engine Production and Practice

Mr. Liu Hongbin
Mould Manufacturing Supervisor, Faw Mould Manufacturing Co., Ltd
Topic: Accuracy Control in High Speed Machining of Outside Car Cover Mold

Thanks Words

Fuyao Precise Component (Kunshan)Co.,Ltd:

Thank you Ringier provides a good communication platform in the industry, can find high quality solutions for attending enterprises. Finally wish Ringier a bright future.

Dongfeng Honda Engine Co., Ltd :

The seminar is very wonderful , well organized , sensible and thoughtful. Hope Ringier Conference even better in the future.
