From Ultrabook Trend to CMF

从Ultrabook的发展趋势谈CMF

三屏一云竞局下 PC 发展受困

Tablet幾可滿足內容創造以外，大部分運算需求，威脅PC成長。

智慧型手機受限於尺寸，僅滿足行動上網需求，但未滲透PC市場。

PC業者雖覬覦進入客廳戰場，但仍不敵STB及遊戲機。

intel 期盼 Ultrabook 重新定义 PC 地位

吸收Tablet特色

- Voice Control

PC自我強化

- Creation to Express
- Security

與客廳裝置互動

- WiDi
- With Gesture
- Media Sharing App

Car Styling

The ever most dynamic forms are from the mastering of composition of lines and flowing surfaces. Edged, angled lines delineate a rather aggressive futurism.

Interior/Furniture

Pursuing nature and craftsmanship feeling, interior design trend turned its back to minimalism. Raw material, mix & match, grotesque combination, try to find the new balance to modern life.

Product

Rebounding from minimalism, seeking for a little bit more flavor, products are more a extending of personal styles. Contrast of elements/material/colors, dramatic tension delights life.

A full-page background image featuring an astronaut in a white spacesuit standing on the lunar surface. The astronaut is carrying a large white equipment bag and is positioned on the left side of the frame. The ground is covered in grey lunar soil and small rocks. In the background, the dark sky of space is filled with stars, a prominent view of the Milky Way galaxy, and a bright comet with a long white tail streaking across the upper left portion of the image.
