

# Plastics Technology in Medical Products Conference 2014

*--Innovations in Plastics manufacturing for Medical Devices*

Concurrent Events:

Plastics Technology in Electronic Products Conference 2014

Plastics Technology Application in Automobile Conference 2014

Plastics Packaging Technology Application Conference 2014

March 27-28, 2014  
Hangzhou China

 **Ringier Conferences**

荣格研讨会，聚集行业专家的巅峰论坛！  
Connecting industry through information exchange!

## Conference Background:

In 2013, International Plastics News for China and Medical Manufacturing & Design for China, in association with Ringier conferences, hosted the inaugural 7th Plastics Technology in Medical Products Conference. Offering perspectives from both the medical device and plastics industries, this conference is the premier forum offering practical concept-to-market solutions for medical device manufacturers.

Ringier will soon launch 2014 Plastics Technology in Medical Products in March. This conference will offer cutting-edge presentations on National and International development of polymer materials, regulatory updates and registration problem solutions, we'll strengthen the clinical application case studies. Join us to learn all the latest!

[www.industrysourcing.com](http://www.industrysourcing.com)

- **Explore Innovations:** Learn more about business cases and market research options from industry experts on proven successes.

- **Explore Innovations:** Get key updates from medical plastics research experts and their future strategies.

## Enjoy And Benefit the Four-in-one

- **Network with Industry Experts:** Easy way of booking one-on-one meetings with speakers and delegates

- **Discover New Ways to Market Science Based Products:** A convenient way to learn how to get results with a minimum financial input to develop new products and brands in the current regulatory environment.

### Call for Speakers:

Our conference program are painstakingly researched over a period of months, ensuring that the agendas are always leading-edge, covering only those issues that matter to the marketplace. The speaker faculty is populated by individuals and organizations recommended to us by the market as leaders in their field.

Speaking at Plastics Technology in Medical Products Conference 2014 presents a unique platform from which to showcase the expertise of a high-profile representative from your organization.

### Speaking Can Involve:

#### **A speaking slot on the conference agenda**

– a powerful platform from which to showcase the industry and knowledge and abilities of an expert in your organization

#### **Chairmanship of a conference session**

– a great way of aligning yourself with a high profile panel of industry experts

#### **Involvement in an industry panel discussion as a panelist or chairperson**

– a chance to engage in industry-critical debate with market leading executives

### Who You Will Meet:

#### ※ By Industry:

Hospitals and medical institutions  
Medical device manufacturers  
Medical plastic products manufacturers  
Moulding equipment manufacturers  
Medical plastics material manufacturer  
Third-party testing, certification bodies  
Industry associations, research institutions, universities  
Others

#### ※ By Department:

Clinicians / Medical equipment procurement  
Chairman / Vice-president / Chief Executive Officer  
R & D department Supervisor / Engineer  
Quality control department Supervisor / Engineer  
Technical department Supervisor / Engineer  
Purchasing department Supervisor / Manager  
Market development Director / Marketing Manager  
Other relevant personnel

## Conference Agenda:

### Thursday, March 27

- 8:30 am Registration and Continental Breakfast  
9:00 am Welcome Address
- Session One Main Track Plastics Market trends and regulatory update to ensure Quicker, Smoother and More Cost-effective Approval**
- 9:10 am Overview—Highlighting the key factors that are shaping Plastics to identify future growth, challenges and opportunities  
9:50 am Regulatory Update: Outlining the current developments of FDA/EU regulations to expedite the approval processes  
10:30 am Mid-Morning Break  
11:00 am National regulatory updates and case studies  
11:50 am LUNCH
- Session Two Medical Track Clinical application of Medical Plastics and Analysis**
- 1:30pm Clinical Perspective: Latest Clinical application of Medical Plastics  
2:10 pm GMP Implementation of Plastics on Medical Devices  
2:50 pm Biocompatible Analyses of Polymer Materials  
3:30 pm Mid-Afternoon Break
- Session Three Medical Track New Plastics, New Concept, New Application**
- 4:00 pm Innovating with Quality in Mind –polyurethane applications (TBC)  
4:40 pm Fluorine compound on Medical Plastics (TBC)  
5:20 pm Closing remarks and End of Day 1

### Friday, March 28

- 8:00 am Registration and Continental Breakfast
- Session Four Medical Track Designing and Manufacturing**
- 9:00 am Introduction of new technology on injection molding  
9:40 am Advanced technologies on Medical Plastics  
10:20 am Mid-Morning Break  
10:50 am Developing a robust strategy to sterilization of polymer materials  
11:30 am Leveraging Partnerships for R&D Efficiency and Effectiveness  
12:10 pm LUNCH
- 1:30 pm Keynote speech**
- Main Track**
- 2:10 pm Panel discussion:  
3:00 pm Luck draw  
3:30 pm Closing remarks and End of Conference

#### Conference Highlights:

- Identify new market forces driving cost reductions;
- Learn how companies are conquering global regulatory hurdles
- Find out the newest lead-free technology breakthroughs facilitating reliability improvements
- Hear what practical and advanced manufacturing techniques are being utilized in the age of miniaturization.

## About Organizer:

Established in 1998, Ringier Trade Media Ltd. is a multimedia communications company that provides trade media solutions in China, Asia, the Middle East and Africa using print and online media and mobile applications which help link buyers and manufacturers together to do business.

Ringier publishes 35 specialized industry magazines and hosts its online trade marketplace ([www.industrysourcing.com](http://www.industrysourcing.com)) to deliver the latest cutting-edge technology and market information to over 600,000 decision-makers in manufacturing industries. In addition, Ringier Conference organizes industry conferences which bring together over 3,000 industry leaders each year to exchange information on specific topics critical to the future development of industry. Ringier Conference holds over twenty professional and technical conferences each year in industrial fields directed at China's manufacturing markets. Taking advantage of, and being fully integrated with powerful media resources, these conferences cover the latest developments in China's fastest growing industries such as Plastics, Foods, Personal Care Products, Pharmaceuticals, Non-Wovens, Coatings, Automotives, Metalworking, Molds, Packaging, Composite materials, Medical Implants Technology, Ink Technology and other industries. Ringier will conduct Plastics Technology in Medical Products Conference 2014. For more information, please visit [www.ringierevents.com](http://www.ringierevents.com).
