Plastics & Rubber Technology Application in Automobile Conference 2014

"Lightweight and green" is today's the main development direction of automotive materials, world's leading car manufacturers have been accomplish much in the development of plastics and composite materials, such as BMW has been using the latest carbon fiber reinforced plastics to manufacture both lightweight and sturdy frame features; BASF polyamide material has also been used in Mercedes-Benz GL-Class plastic engine mounts, etc. Materials in the automotive could not only make lightweight & energy saving, but also broke the news in the or carcinogenic of interior materials, come up people's attention once again to the car with a green and security issues.

Ringier "Plastics Technology Application in Automobile Conference 2014" continues the 9th concept of the "green and lightweight", analyze the plastic material selection and manufacturing process of automotive exterior parts, interior parts and functional structure, to build the technology platform of the automotive product design and material development for enterprises.

Ms. Lin Xu,
Deputy secretary general, China Plastics
Processing Industry Association
**Overview of the China development and
challenges on Plastics Products**

Mr. Kun Fang,
Ph.D., Chief Engineer BEIJING NASHENGTONG ADVANCED
MATERIALS & TECHNOLOGY CO. LTD
**Long fiber reinforced thermoplastic composites (LFT) in the case
of several applications in automotive lightweight parts**

Mr. Xiang He,
Deputy secretary general, CSRA
**Carbon materials on the new black
gold era**

Mr. Shaofei Qu, Customer Engineering Manager & Team Leader
CoC Pro, Benteler Investment (China) Limited
Benteler Automotive Lightweight Competencies

Mr. Yong Zhang,
Professor, School of Chemistry and Chemical
Engineering Shanghai Jiao Tong University
**Study on Rubber & Plastics blends and
further research of composite material**

Mr. He Zushun, FCS Plastics industry Manager, Stäubli
(Hangzhou) Mechatronic Co., Ltd.
**Quick Model Change Technology in the Production of
Plastic Parts**

Ms. Yi Zhu,
Senior Engineer, Nonmetallic Research
Center China FAW Group Corporation
**Application of High-performance
Nylon Material on the Functional
Parts of Commercial Vehicle**

Mr. Tony XU, Market Development Manager, RADICI Plastics
(Suzhou) Co., Ltd.
Radici Engineering Plastic: A Key Partner in Auto Market

Mr. Wang Jianwu,
Engineer, Keyence application sensors &
precision measuring instruments division
**Measuring instruments help the Automotive
Plastics Industry Quality Leap**

Mr. David Huang, Technical Manager, Autodesk, Inc.
**Optimize application of Moldflow simulation
technology in automotive**

Mr. Rock Li
Business Development Manager, Piovan
Plastics Machinery (Suzhou) Co., Ltd
**Energy efficiency in plastic polymers
drying**

Mr. Shengzhang Hong Professor,
Plastic molding engineering of Shanghai Jiaotong
University
**Mould decoration technology in the
application of Automotive**

Attending Companies:

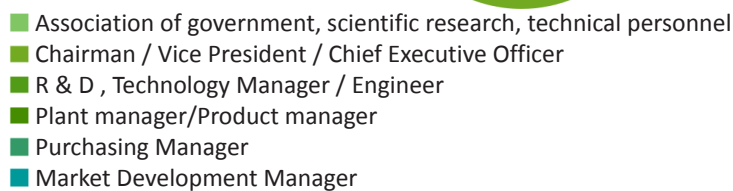

3D SYSTEMS INC
ANHUI JIANGHUAI AUTOMOBILE CO.,LTD.
TECHNICAL CENTER
AVIC Automotive Systems Holding Co.,Ltd.
Bentler Automotive (China) Investment Ltd.
Bosch (China) Investment Ltd.
China FAW Co., Ltd. R&D Center
China Plastics Processing Industry Association
China Synthetic Resin Supply and Sale Association
China Technical Center, Electronics, Johnson Controls
Delphi Electrical/Electronic Architecture
FAW Jiefang Qingdao Auto Co., Ltd, Qingdao
Foxconn
Geely Automobile Research Institute
Kin Sang (Shanghai) Limited
Ningbo Changhua Auto Products Co., Ltd.
Ningbo HuaXiang Automotive Research and Development Co.,Ltd.
Zanini industries Co . Ltd
Zhejiang Xibei Special Vehicle Co.,LTD

Ningbo Jingyua Trade Co., Ltd.
PATAC
Sachs Automotive components & Systems Shanghai Co.,Ltd.
SAIC Motor Corporation Limited
Shanghai Daimay Automotive Interior Co., Ltd.
Shanghai Haima Automobile R&D Co., Ltd.
Shanghai Kostal-Huayang Automotive Electric Co., Ltd.
Shanghai Sanlang Vehicle Parts Co., Ltd.
Shanghai Sunshine 3D Printing Co., Ltd.
SHANGHAI TO TECH-TRADING LIMITED
Shanghai xingfu motorcycle CO.Ltd
Shanghai Yihang Automobile Parts Co., Ltd.
Shanghai Yirui Automobile Technology Co.,Ltd.
Staubli (Hangzhou) Mechatronic Co., Ltd.
TE Connectivity
Tech International (Shanghai) Co., Ltd.
TJ Innova Auto Design & Central Institute
TJFAW-RDC
TRW Automotive Technologies (Shanghai) Co., Ltd.
UP-Standard Rechnical Service (Shanghai) Co., Ltd.
Wanxiang Qianchao (Shanghai) Automotive Systems Co.,Ltd.

Focus on automotive materials, focusing on the automotive industry, and wish the conference even better!

—Mr. Zhijun Peng, Trim Section Supervisor at ANHUI JIANGHUAI AUTOMOBILE CO.,LTD. TECHNICAL CENTER

Thanks to Ringier who gave this such wonderful seminar!

—Mr. Gaoyong Li, Material Engineer at Delphi Electrical/Electronic Architecture

The meeting content is rich, very fascinating!

—Mr. Bruce Huang, CAE Manager at Ningbo Changhua Auto Products Co., Ltd.

2014 Plastics&Rubber Technology in Medical Products Conference

2014 Plastics&Rubber Technology in Medical Products Conference in March. This conference offers cutting-edge presentations on National and International development of polymer materials, regulatory updates and registration problem

Ms. Lin Xu,
Deputy secretary general, China Plastics
Processing Industry Association
**Overview of the China development and
challenges on Plastics Products**

Mr. Wu Daming, Professor, Beijing University of Chemical
Technology
**Advanced materials and application of precision medical
plastic pipe production technology**

Mr. Xiang He,
Deputy secretary general, CSRA
**Carbon materials on the new black
gold era**

Ms. Jiao SUN,
Professor & Director, Shanghai Biomaterials Research
& Test Center /Ninth People's Hospital, School of
Medicine Shanghai Jiaotong University
**The key points of safety evaluation on medical
biomaterials**

Mr. Yong Zhang,
Professor, School of Chemistry and Chemical
Engineering Shanghai Jiao Tong University
**Study on Rubber & Plastics blends and
further research of composite material**

Dr. George DU, VP, Vascular Surgery, Shanghai
Microport Medical(Group) Co., Ltd
**Advanced technologies on International textile
materials**

Dr. Timothy Low, Vice President
Medical Affairs, Asia Pacific, Covidien Pte Ltd.
Self-Fixating Mesh in Hernia Repair

Dr. Tingfei XI,
Professor, Peking University
R&D of biodegradable coronary stents

Miss. Ye LI,
Engineer, ARBURG (Shanghai) Co.,Ltd
**Precision injection molding technology and
automation solution for medical products**

Mr. Jack Liu,
Application Engineering Department Manager, Demag
Plastics Machinery (Ningbo) Co., Ltd
**Demag injection molding machine application in the
medical industry**

Mr. Ross Zhu,
Sales Manager, Wacker Chemicals (China) Co., Ltd
Silicone elastomer:Pure and future proof

Dr. Jianqing YAO,
Vice President of R&D, Panther Healthcare
Application of emerging medical bio-materials

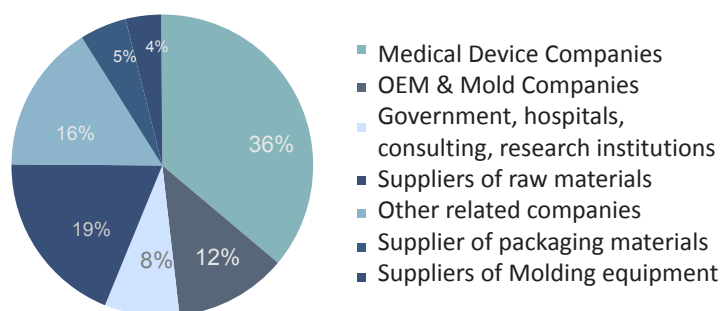

Mr. Aaron Zhong ,
Senior consultant, Frost & Sullivan healthcare practice
**Medical plastics products overview in US Market and
Chinese industry development**

Attending Companies:

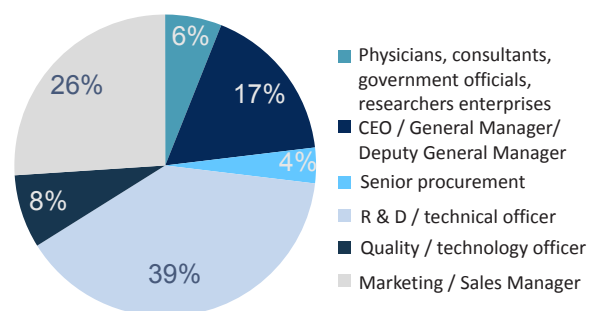

Demag plastics Group
MicroPort
Jianxinyuan Technology
Kingfa Sci.&Tech. Co., Ltd
Lifetech
Henkel
Medtronic
DSM
Rosti
Beijing University of Chemical Technology
Micro-Tech (Nanjing) Co., Ltd.
NUTRICIA
Infinitus
Shanghai Kinetic Co., Ltd.
Qingdao Jason Electric Co., Ltd
SCM Chem
Evonik Degussa Specialty Chemicals (Shanghai) Co., Ltd.
Wuhan Huipu New Chemical Materials Co., Ltd
Beijing Fert Technology Co.,
WACKER Chemie AG
The Lubrizol Corporation
Fudan University

Foshan New Changsheng Plastics Films Co., Ltd.
Reach Surgical, Inc.
Angel Align
Shanghai Dahua Medical Apparatus Co., Ltd
Changzhou Yanling Electronic Equipment Co., Ltd
Jiangsu Reable Medical Equipment Co., Ltd
Shanghai Jinta Medical Co., Ltd.
Jiangsu Suyun Medical Materials Co., Ltd.
Lengthen
West Pharmaceutica
Sanyou Med

2014 Plastic Technology in Electronic Products Conference

Ringier “the 9th Plastic Technology Application in Electronic Products Conference 2014 ” was held in March at Four points by Sheraton Daning Hotel China. Following the success of the past conferences, this year covered international consumer electronics, design, R&D, Marketing promotion.

All the leading material developers, electronic manufacturers, academic experts gathered together to discuss the development of innovative plastics.

Ms. Lin Xu,
Deputy secretary general, China Plastics
Processing Industry Association
**Overview of the China development and
challenges on Plastics Products**

Mr. Diego Kuo,
Design Director, PEGA
The product design impact on CMF development trends

Mr. Xiang He,
Deputy secretary general, CSRA
**Carbon materials on the new black
gold era**

Dr. Gewen Zheng , Professor , Ningbo Institute of Materials
Technology&Engineering.Chinese Academy of Sciences
**Graphene Cooling film process on high thermal conductivity
electronic products**

Mr. Yong Zhang,
Professor, School of Chemistry and Chemical
Engineering Shanghai Jiao Tong University
**Study on Rubber & Plastics blends and
further research of composite material**

Guo Wei , FCS Application &Development Supervisor ,
Stäubli (Hangzhou) Mechatronic Co., Ltd.
**Quick Model Change Technology in the Production of
Plastic Parts**

Mr. XU Peixian ,
Director of expert advisor committee , Shanghai
die & mould industry association
System of integral hot runner

ZHAO Guoqun ,
Dean, School of Materials Science & Engineering ,
ShanDong University
**Advanced technology on microcellular foam injection
molding**

David Huang ,
Technical Engineer , Autodesk
**The optimize application of Moldflow simulation
technology in ICT industry**

Jiachang LIU ,
Former CMF Senior program manager , HP
Innovative application of outer materials

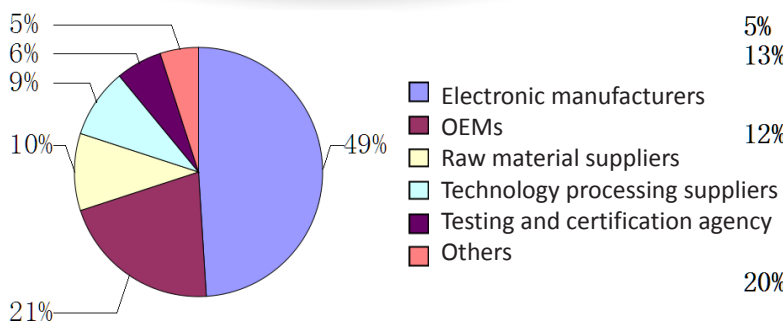

Ah Jian ,
R&D Manager , TONLY
Plastics technology application of TONLY

Attending Companies:

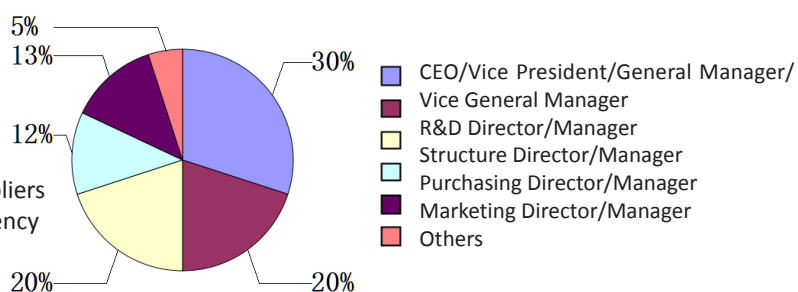

Shanghai die & mould industry association
CSRA
Shanghai Jiao Tong University
Autodesk
HP
TONLY
Chinese Academy of Sciences
Stäubli (Hangzhou) Mechatronic Co., Ltd.
ShanDong University
PEGA
Beijing Chemical Industry Research Institute
Shanghai Langyi Functional Materials Co., Ltd

Plastics Packaging Technology Application Conference 2014

Ringier "Plastics Packaging Technology" classic series conference is held by "International Plastics News for China" and "International Packaging News for China", it is including nearly 100 packaging technologists from the world famous food & beverage companies, such as Bright, Nestle, JDB, Lee Kum Kee, Kraft, Infinitus etc., to win a wide reputation and praise in the industry.

"Plastics Packaging Technology Application Conference 2014" continues the previous wonderful food and beverage packaging session, add pharmaceutical packaging session, in-depth discussion of the development of new plastic molding equipment, deepen dialogue and communication between the food & beverage, pharmaceutical companies and the plastic packaging materials and molding equipment suppliers, to build high-end business platform of the packaging industry practitioners.

Ms. Lin Xu,
Deputy secretary general, China Plastics
Processing Industry Association
**Overview of the China development and
challenges on Plastics Products**

Ms. Hongwei Zhang, Deputy director of the
China Packaging Research & Test Center of Quality Center
Class packaging testing to ensure Food and Drug safety

Mr. Xiang He,
Deputy secretary general, CSRA
Carbon materials on the new black gold era

Mr. Fuxin Yang, Professor, College of Food Science &
Technology, Shanghai Ocean University.
**MAP and MAP Core Technology Research of Materials
and their relationship**

3.Mr. Yong Zhang,
Professor, School of Chemistry and Chemical
Engineering
Shanghai Jiao Tong University
**Study on Rubber & Plastics blends and further
research of composite material**

Mr. Hong Zhang, Research director, Traditional food processing
and packaging Institute of Agro-Product Processing Science and
Technology CAAS
**Application of high-barrier package materials for meat and meat
products**

Mr. Markus Stadlet Technical Director,
Demag Plastics Machinery GmbH
**Demag injection molding machines used in the
packaging industry**

Mr. Genxin Chen, Chief Engineer, Shanghai Institute of
Plastic Products
**The status and development trend of plastic
packaging industry**

Mr. Xingxiang Xu, Secretary-General, Shanghai
City Plastics Packaging Technology Association of
Packaging Committee
**Make China plastic packaging reduction work to
explore**

Mr. Hui Zhou, Assistant General Manager of Jiangsu
Yurun Meat Industry Group Co., Ltd. Technology
Center
Meat Packaging Technology

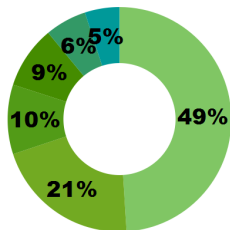

Ms. Renato Granelli BIODATA, GM, NORDMECCANICA
MACHINERY SHANGHAI
**SOLVENT LESS ADHESIVE LAMINATION -Advanced
principles in Technology solvent less**

Attending Companies:

Shanghai Chuanqi Food Co.,Ltd.
Wowo Group
want-want group
Unilever R&D Shanghai
The Exper Committee of CPPIA
Sumitomo Chemical
Shanghai Ocean University
Shanghai McCormick Foods Co.,Ltd.
Shandong Signovo Biotechnonlogy Co.,Ltd
SGS-CSTC Standards Technical Services (Shanghai) Co., Ltd.
Regenex Pharmaceutical.ltd.
Reflective Materials Manufactory Company SZU
Perfect (China) Co., LTD

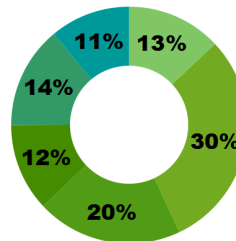

Jiangsu Yurun Meat Industry Group Co., Ltd.
INVISTA Management (Shanghai) Co., Ltd.
Infinitus (China) Company Ltd.
Hongbaolai Group Company Ltd.
GLS Thermoplastic Alloys (Suzhou) Co., Ltd.
CNOOC and Shell Petrochemicals Company Limited
China Plastics Processing Industry Association
China Packaging Research & Test Center
Bright dairy & food Co.
Birfost Industrial Development Co., Ltd.
Associated British Foods China
Amway (China) Co., Limited
Kentplas Packaging Technologies, Ltd.

Company Type

- Packaging end-users, including food, beverage & pharmaceutical companies
- Packaging products manufacturing enterprises
- Packaging suppliers of raw materials and accessories
- Packaging machinery and equipment suppliers
- Packaging certification, inspection Agency
- Other relevant institutions and enterprises

Position Type

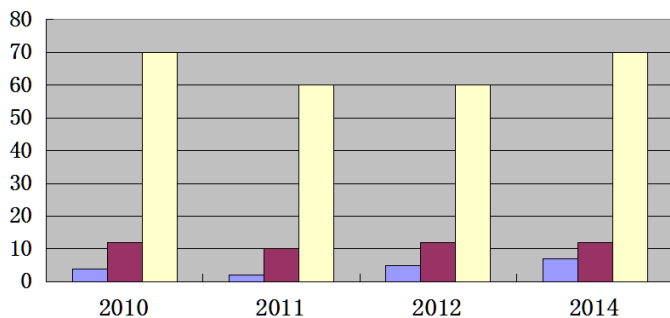

- Chairman / Vice President / Chief Executive Officer
- R & D, Technology Manager / Engineer
- Packaging production Manager / Engineer
- Purchasing Manager
- Market Development Manager
- Other Relevant Delegates
