

High Performance Machining Technology Conference 2016

—Precision Machining & Metal Forming

Date : March 12-13,2016

Venue:DoubleTree by Hilton Hotel Shanghai - Pudong

Post-Event Report

A full program that focus on the precision machining & metal forming industry

The High Performance Machining Technology Conference 2016 was held on 12 and 13 March 2016 at the DoubleTree by Hilton Hotel Shanghai - Pudong. There were over 200 attendees who are the Vehicles, engines, auto parts manufacturers, mold manufacturing, 3C manufacturers, aircraft, rail transportation, engineering machinery and parts manufacturing companies and so on associations with 24 excellent presentations during 2 days.

The conference opened the event with Mr.Gulin Yang who works in Institute of Advanced Manufacturing Technology, Ningbo Institute of Industrial Technology, CAS. Mr.Jun Chen,Dean of Dept. Plasticity Technology, SJTU, Deputy-director of National Engineering Research Center of Die & Mold CAD and Mr.Yiping Lin,Deputy Director of the Academic Committee, Shanghai Society of Aeronautics, Professor & Senior Engineer had given speeches about high performance machining technology,and had given ideas of the future direction of it .

Companies and institutions such as, FOXCONN,Farsoon,SHAM,SAIC,FAW discussed the advance influences produced from the growth of 3D print,welding technology,Horn,WD-40,GE,Seco also delivered their verdicts on systematic thinking of high performance machining development,Widia,FUCHS,BECKHOFF,Patlite shared detail information of product technology such as cutters,aviation light material and coolant.

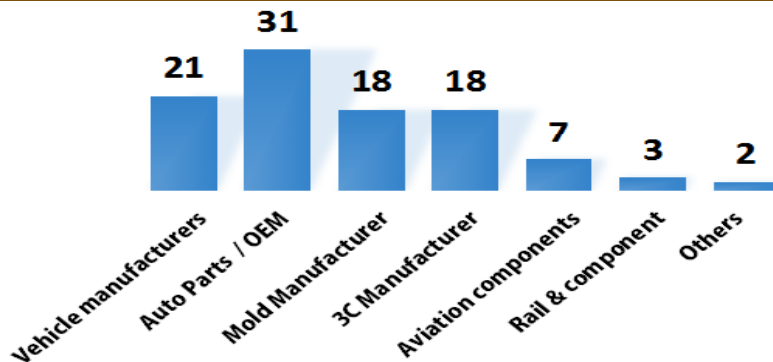

Under the influence of Industry 4.0, demand in all regions will continue to change, and the overriding message was that the industry must constantly adapt to meet and exceed their requirements.

Business Type

Job Function Distribution

Satisfaction Survey

Comments

94% agree that the presentation is informative and useful.

98% agree that the format of the presentation had a positive impact on learning/satisfaction.

82% agree that the conference helps to establish alliances or build relationships with international peers.

Speakers and Topics

Mr. Guilin Yang-
Director, Institute of Advanced
Manufacturing Technology, Ningbo
Institute of Industrial Technology, CAS
Topic :
Robotics and Intelligent Manufacturing

Mr. Bin Wei
General Manager, GE Global R & D
Center, Shanghai
Topic :
Discussion on the Systematic Thinking of
High Performance Machining
Development

Mr. Zecai Xia
OEM BD Manager & Metal Working Branch
Manager,
Beckhoff Automation (Shanghai) Co., Ltd.
Topic :
Beckhoff Power-assisted Sheet Metal
Industry Intelligent Manufacturing

Mr. Xingwei Zheng
Senior R&D Engineer, Shanghai Aircraft
Manufacture Company
Topic:
Intelligent Manufacturing Technology of
Aviation Light Material Structure

Mr. Guofang Wang
China Sales Manager, Widia Group
Topic:
Widia Cutters Assist China Intelligent
Manufacturing

Mr. YongJun Zeng
Metal Working Product Manager
FUCHS Lubricants (China) Ltd.
Topic :
High Pressure Coolant in Machining
Applications

Mr. Tony Hui
National Sales Manager,
Horn (Shanghai) Trading Co., Ltd.
Topic :
Turn the Process up Side down- Another
Way of Efficient Machining

Mr. Sam Liu
Product Trainer, WD-40 Company China
Topic :
WD-40 Multi-Use Product Assist High
Performance Machining

Mr. Jianguo Wu
Senior Technology Engineer, FOXCONN
Science & Technology Group
Topic:
Introduction to Automations in
Processing Electrodes and Wire EDM
Machining (WEDM) Technology Applied
to Machining Precise & fine Parts

Mr. JianPin Lin
Professor & Doctorial Tutor, School of
Mechanical Engineering Tongji
University
Topic:
Trends and Challenges of Boron Steel
Hot Stamping Technology

Speakers and Topics

Mr. Jun Chen
Dean of Dept. Plasticity Technology, SJTU,
Head of Shanghai Research Institute of
Tool & Die Technology
Topic:
New Progress on Incremental Sheet Metal
Forming

Mr. Yiping Lin
Deputy Director of the Academic Committee,
Shanghai Society of Aeronautics, Professor
& Senior Engineer
Topic:
3D Printing Assist Aviation Science and
Technology Innovation

Mr. Hongbin Liu
Senior R&D Engineer, Shanghai Aircraft
Manufacture Company
Topic:
The Application of Advanced Welding
Technology in the Field of Aviation
Manufacturing

Mr. WeiDong Shen
Senior Manager, SAIC Volkswagen
Automotive Co.
Topic:
Application of 3D Printing Technology in
Automobile Development

Mr. BoSheng Chen
Deputy General Manager, Farsoon, Inc.
Topic:
Applications of Metal 3D Printing by the
Equipment Manufacturer's Angle of View

Mr. Joe Feng
Mgr. of Product Management, Seco Tools
Topic :
How to Increase Productivity with
Steadyline

Mr. Jixin Gu
General Manager, Patlite (China)
Corporation
Topic : Using WD-Z2 Wireless
Equipment---
The Factory Equipment Running Status
Summary Analysis System

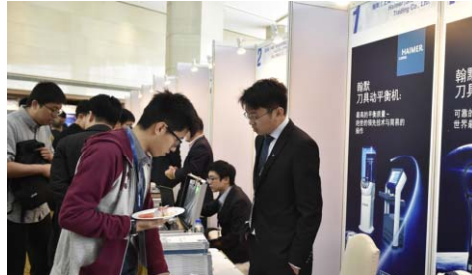

Mr. Yuan Yao
Director, Professor, China FAW Co., Ltd.
R&D Center
Topic: Laser Welding Applications in
Automotive Lightweight

Conference Activities

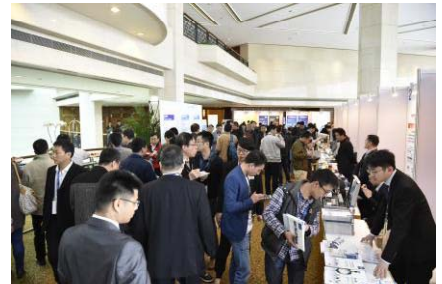

Booth Visiting

On-site exclusive showcase, supplier and user matching based on the requirements, meetings set up between potential suppliers and customers.

Tea Break Social Networking

Face to Face with key industry contacts, build up your social network with industry manufacturers, suppliers, regulators, academicians & R&D experts.

2016 Ringier Technology Innovation Awards

Ringier awards efficient processing the Technical Innovation Award to promote the industry to a better direction.

Part of Attending Companies

Epicor Software (Shanghai) Co., Ltd
West-well (Shenzhen) Generic Technology Co., Ltd
TTS Tooltechnic Systems (Shanghai) Ltd.
FULAIKE (SUZHOU) CUTTING TOOLS CO.,LTD
FUCHS LUBRICANTS(CHINA)LTD
Wu Di (Shanghai) Industrial Limited
Haimer (Shanghai) Trading Co., Ltd.
Hoffmann Quality Tools Trading(Shanghai) Co., Ltd.
West-well (Shenzhen) Generic Technology Co., Ltd
Horn (Shanghai) Trading Co.Ltd
Vision Engineering Ltd
Beckhoff Automation (Shanghai)Co.,Ltd
WIKUS Saw Technology(Shanghai)Co.,Ltd
TONG-TAI MACHINE & TOOL CO., LTD.
Hunan Farsoon High-Tech Co.,Ltd.
KLINGSPOR ABRASIVES(SHANGHAI)CO.,LTD
Shenzhen Leadwell Technology CO., LTD.
Kennametal Hardpoint (Shanghai) Co. Ltd
ETSC Technologies CO.,LTD.

Shanghai GKN Drive Shaft Company
Shanghai Automotive Transmission Co., Ltd.
Shanghai Shannon Bus Co., Ltd.
Shanghai Autopass Machinery Industrial Co., Ltd.
SAIC Chase Motors Limited
SAIC General Motors Co., Ltd.
Shenzhen Top Engineering Co., Ltd.
Suzhou Jincheng Precision Casting Co., Ltd.
Weifu High-Technology Group Co., Ltd.
FAW Wuxi Diesel Engine Factory Ltd.
Zhejiang Yi-feng Machinery Co., Ltd.
China CSR Sifang Co., Ltd.
Shanghai Fuel Cell Vehicle Powertrain Co., Ltd.
On Shanghai Inteva Automotive Door Systems Co., Ltd..
Shanghai Huizhong Automotive Manufacturing Co., Ltd.
China COMAC Shanghai Aircraft Manufacturing Co., Ltd.
Shanghai (Kunshan) Napa Auto Parts Co., Czech Republic
