

Plastics & Rubber and Innovative Materials Application in Automobiles Conference 2016

Date: March. 17-18, 2016

Venue: Shanghai, China

Post-Event Report

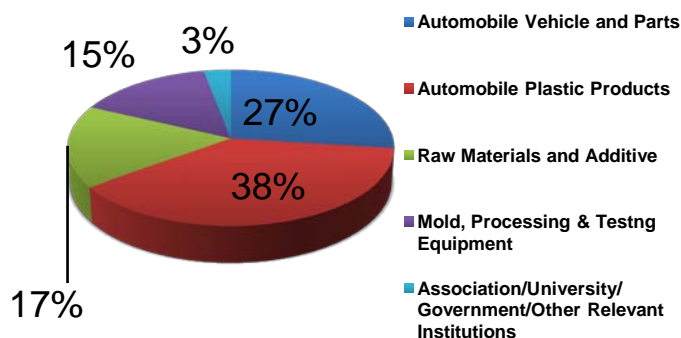

Focusing on the Automobile Industry,
Lightweight became the Most Absorption Theme

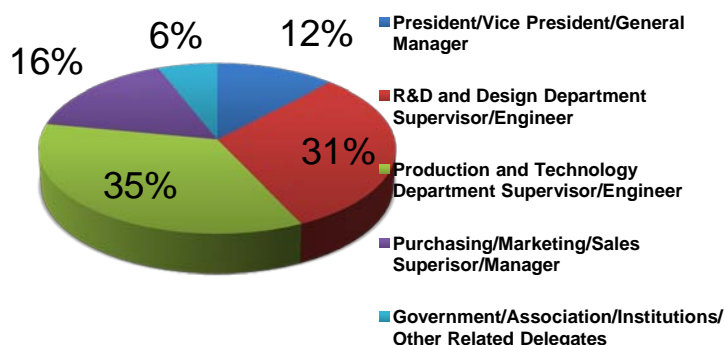

Ringier 12th "Plastics & Rubber and Innovative Materials Application in Automobiles Conference 2016" was held at Shanghai on March 17-18. In addition to the "Auto Lightweight" get the guests rush, Electric cars, Thermal analysis of the Auto Industry, Auto Recycling and Utilization, one of the most important laws and regulations such as VOC and focus of the scene. Companies elites such as From Faurecia, Beijing CH, Iveco have excellent speech, at the 2nd day afternoon of the meeting, automobile guest also have a factory visits to Shanghai Volkswagen located in Shanghai Jiading.

Participants Analysis

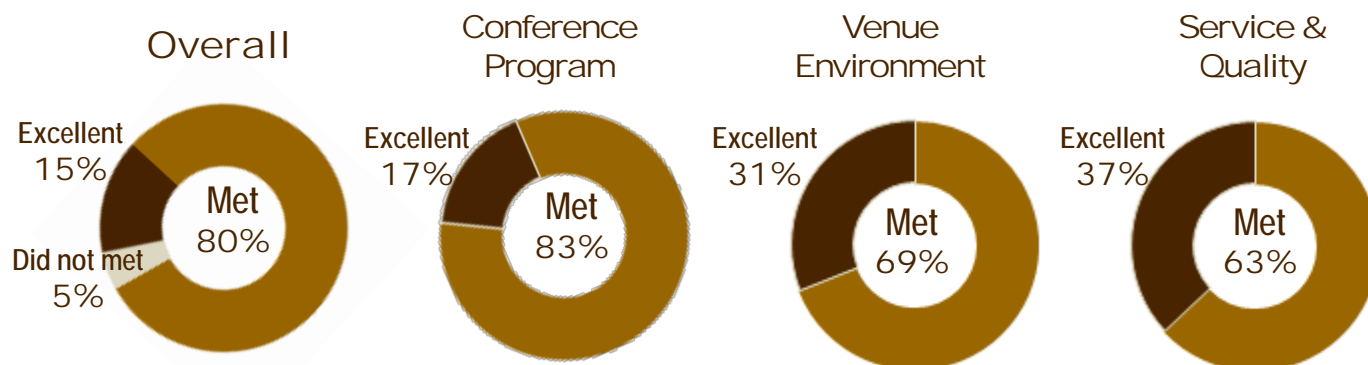

By Industry

By Position

Satisfaction Survey

Comments

92% agree that the presentation is informative and useful.

93% agree that the format of the presentation had a positive impact on learning/satisfaction.

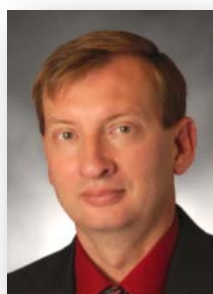

86% agree that the conference helps to establish alliances or build relationships with international peers.

Speakers and Topics

Mr. Michael Taylor
Vice President
SPI

Topic:
Key Market Drivers and
the Demand for Plastics

Ms. Lin Xu
Director
China Plastics Processing
Society

Topic:
Development trend forecast of
China's plastics industry during the
thirteenth five year plan

Mr. Markus Stadler
HOT(Head of Technology)
Demag Plastics Group

Topic:
Blue Technolution for Injection
molding machines

Mr. Daming Wu
Professor
Beijing University of Chemical
Technology

Topic:
Polymer Nano/micro Fabricating
Technology and Application
Prospects

Mr. Ruilin Tang
Deputy Chief Engineer
Shanghai Haima
Automobile R&D Co.,Ltd

Topic:
The Innovation Technology of
The Domestic Electric Vehicles

Mr. David Huang
Technical Manager
Autodesk

Topic:
Moldflow Power in Automobile
Lightweight Design

Mr. Pengfei Kong
Thermal Analysis
Technology Consultant
METTLER TOLEDO

Topic:
Application of Thermal Analysis
in the Automotive Industry

Ms. Yanru Li
Product Engineering Manager
NAVECO Ltd.

Topic:
Explore Commercial Vehicle
Lightweighting, Drive Product
Technology Upgrade

Speakers and Topics

Mr. Gu Xin
Automotive Sales Manager
RADICI Plastics (Suzhou) Co., Ltd.

Topics:
Innovative Nylons to support the
Automotive quest for Light
Weighting Solutions and High
Temperature demands

Mr. GONG Yuhong
Engineering
Director, Faurecia (China)
Holding Co., Ltd, Interior
System

Topics:
Light weight
solution_NafiLean and
application

Ms. Fengxia Wang
Rubber and Plastic Group Leader
for Non-metallic Materials
Engineering Department
BAIC

Topics:
Application of Non-metallic Materials
in BAIC Auto

Ms. Li Li
Environmental Section Chief
Geely Automobile Research
Institute

Topics:
Domestic and Foreign Automobile
Recycling and ELV, VOC
Regulations

Mr. Zhaoyun liang
Sales Department
Trexel (Shenzhen)Technology
Co., Ltd

Topics:
MuCell® Applications in
Automotive

Ms Jin Zhang
Industry analyst for Data
Resource Center
China Automotive
Technology & Research
Center

Topics:
Green Information Materials
Boost Enterprise Sustainable
Development

Mr. Liu Depu
Secretary General
Shanghai Die &
Mould Trade
Association
Chairman

Conference Activities

Booth Visiting

On-site exclusive showcase, supplier and user matching based on the requirements, meetings set up between potential suppliers and customers.

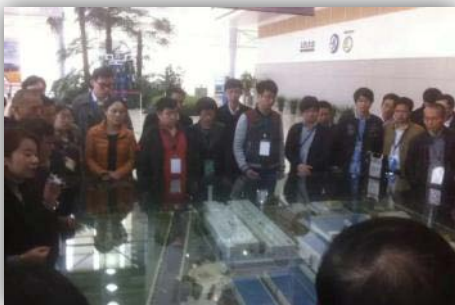

Tea Break Social Networking

Face to Face with key industry contacts, build up your social network with industry manufacturers, suppliers, regulators, academicians & R&D experts.

Factory Tour

We have arranged the Factory Tour to visit the factory assembly workshop of Shanghai Volkswagen Anting, can close understanding of first-class enterprise production management, quality control and the choice of materials and applications.

Part of Attending Companies

Ai Fumai
JAC
BBAC
BAIC MOTOR
CH-AUTO
Benecke Changshun
BYD
BOSCH
Delphi
Dongfeng Visteon
Fiat Chrysler
Faurecia
Foxconn
Geely
Jiangxi Changhe
Calsonic Kansei
Kostal
Lear
YXFS
MECAPLAST
Iveco

Ccmetro
Shandong Lingshang
Shandong Shituo
Shandong Asiawing
SDEC
Shanghai Volkswagen
Valeo
Haima
Micro Powers
SAIC
Shanghai Xinfu Motor
Shanghai Yanfeng
TRW
Wanxiang Qianchao
Weichai
Volvo
Wuxi Ji Xing
Zhejiang XibeiHu
China Aviation Automotive
Systems Holdings Limited
Chongqing Lifan
