

Plastics & Rubber Innovative Materials Processing and Technology Application in Pipes & Construction Materials Conference 2017

Mar.9-10
The Longemont Shanghai

Post
Event Report

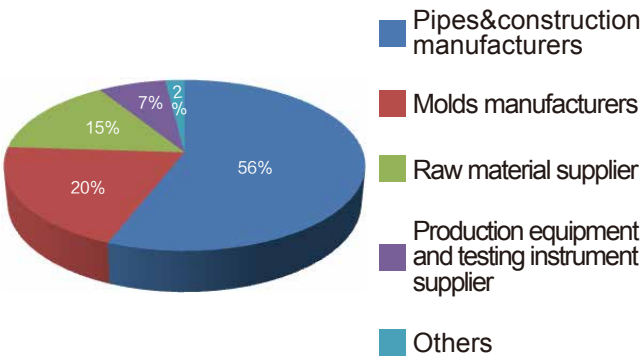

According to the relevant statistics, China's plastic pipe industry has maintained stable development of which production from 840.2 million tons in 2010, increased to 1380 million tons by the end of 2015. The average annual growth rate has reached 10.43% which has exceeded the expected development goals. However the plastic pipe industry still has some shortcomings and problems which need to be solved mainly for the continuous oversupply of production capacity ; further exacerbated market competition and lack of product innovation.

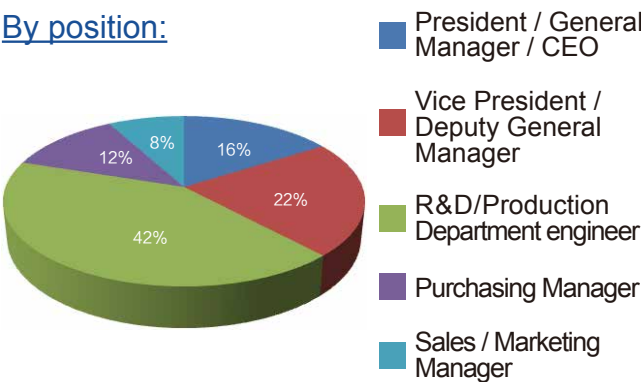

Workshops every year, in addition to innovation in terms of content, in the form of a meeting or said meetings to bring real value, we are in the exploration of innovation. Seminar is not only a chance of a 'learning and social, is also a great opportunity to establish business cooperation. Therefore in this year's Symposium, we particularly new supply and demand matching service, to in the specified time in matching supply and demand of indoor negotiate specified clients and sponsors. Next year, look forward to meeting with you at the next session of the technical summit!

Participators Analysis

By industry:

By position:

Speakers

Mr. Kai Zheng :
Secretary-General, China Synthetic
Resin Supply and Sale Association
Topic: Application and future
development of plastics

Mr. Junqin Huang :
Professor ,Taiwan Kaohsiung
University of Applied Sciences, KUAS
Topic: Application and Problems of
Coextrusion Technology on Plastic Pipes

Mr. Eric Yu:
PRIAMUS Technical Sales Manager
Synventive Molding Solutions
(Suzhou) Co.,Ltd.
Topic: Advanced Process Controls
for Injection Molding based
upon "Melt Front Detection"

Mr. Wei Wang :
President of Shanghai Pipes
Online Mall
Topic: Applications of Internet + in
the construction of market platform
for China's rubber and plastics
enterprises

Mr. Yancheng Chen:
General Manager, Fong
Shin Technology CO., LTD.
Topic: The Application of TOM
with the latest technology at
home and abroad

Mr. Ming Ming :
TS&D Scientist, Dow Chemical
Topic: Polyolefin Elastomers in
Pipe & Construction Applications

Mr. Tony Zhang:
Marketing Manager, RADICI
Plastics (Suzhou) Co., Ltd.
Topic: Leading Polyamide and
Materials for Extrusion technology
in multiple industrial sectors

Mr. Yongzhe Yang :
Chief Engineer, Qingyuan Pipe
Technology CO.,LTD.
Topic: Application of Large Diameter
Buried Plastic Drainage Pipeline -
Sandbox Test

Mr. Jian Pan :
Sales Engineer, Motan-colortronic China
Topic: Motan's Application on
Gas Pipeline Industry

Mr. Richard Jun Li:
Founder & General Manager
Innova Research
Topic: The Most Promising Application
of Graphene In the Next 5 Years

Mr. Pingping Jiang:
Professor, Jiangnan University
Topic: Innovative Application Technology
of Bio - based Heat Stabilizer in
PVC Soft / Hard Pipeline Products

Mr. Yancheng Chen :
General Manager, Fong
Shin Technology CO., LTD.
Topic: The Application of TOM
with the latest technology at
home and abroad 2

Attending Companies

Ningbo Lianda Plastic Pipe Co.,Ltd

Kai Yuan Plastic Technology (Nantong) Limited

Shanghai Longsheng Industrial Co., Ltd

Zhejiang Weixing New Building Materials Co., Ltd

Hangzhou Honyar Pipeline System Technology Co., Ltd

Jiangsu Hippo Co., Ltd

Shanghai Jinshan Yangsheng Pipeline Co., Ltd

JinSu Enterprise Group (Shanghai) Co., Ltd.

Shandong Luyu Plastic Industry Co., Ltd

Zhejiang Zhongcai Pipeline Technology Co., Ltd

Daikin Fluorochemicals (China) Co.,Ltd

Danapr Identification Technology Co.,Ltd

Jinghua Plastic Industry Co., Ltd

Shanghai Qingyuan Pipe Industry Technology Co., Ltd

Shanghai Jwell Pipeline Equipment Manufacturing Co., Ltd

Shanghai Zhongsu Pipe Industry Co., Ltd

Chongqing Polycomp International Corp.

Jiangnan University

Kaohsiung University

Dow Chemical (China) Investment Limited

Radici Group Plastics (Suzhou) Co., Ltd

Taicang Motan-colortronic Plastic Machinery Co., Ltd
